§ 5 Use of Social-Media-Plug-ins

1. We currently use the following Social-Media plug-ins: LinkedIn and Twitter. The provider of the plug-in is indicated by the mark on the box above its first letter or the logo. We enable you to communicate directly with the provider of the plug-in using the button.

If you are logged in with the plug-in provider, your data collected by us may be associated directly with your account with the plug-in provider. We recommend that you regularly log out after using a social network, in particular before activating the button, since this may prevent assignment to your profile with the plug-in provider.
4. We do not store the data. Information on the storage duration and further information on the purpose and scope of data collection and processing by the plugin provider is available in the following data protection notice of these providers. It also contains further information on your rights to that extent and setting options for protecting your privacy.
